The Avalon 32 is our biggest tiny home, and it feels very open and spacious inside with almost 10-foot ceilings and a bright, airy layout. It has a comfortable first-floor bedroom with a lift-up storage bed, plus two lofts for extra sleeping or storage space, so there is room for everyone and everything.

The kitchen is the largest we offer, with plenty of counter space, upper cabinets, a two-burner induction cooktop, and space for a full-size refrigerator. The bathroom includes a 48-inch shower, vanity with storage, flush toilet, and even a washer and dryer combo, making everyday living simple, organized, and comfortable in a fully towable home.

Inside the Avalon 32 Tiny Home

The Avalon 32' features a linear, space-efficient floorplan within a fully towable 32-foot footprint. The main entry opens into a central living area with nearly 10-foot ceilings and large dual-pane windows to enhance natural light and vertical volume. The living room includes a built-in storage couch and a wall-mounted fold-down table, allowing the space to transition easily between lounging, dining, and work. The kitchen runs along one wall to maintain clear circulation and offers extended counter space, upper cabinets, a two-burner induction cooktop, stainless steel sink, and space for a 10-cubic-foot refrigerator, creating a functional and open main living zone.

The rear portion of the home is dedicated to private and utility spaces for added separation and comfort. A fully enclosed first-floor bedroom fits a full-size lift-up storage bed, includes closet space, and provides ground-level accessibility without relying on a loft for daily use. Nearby, a dedicated laundry area and a bathroom with a 48-inch shower, vanity, and flush toilet are efficiently arranged to maximize functionality while maintaining proper clearances. Above, two lofts, a primary queen loft and a secondary loft over the bathroom, add additional sleeping or storage capacity and increase overall versatility without sacrificing the openness of the main level.
